

Backyard Astronomers Contract

Group members Chamisa, Jack, Stephen, Dayn

1. We will have a daily check in about what we've done in our project and what we will be working on that day.
2. Don't commit/push without clear communication between all team members.
3. Be sure to remain positive, ask questions rather than critique.
4. We've all agreed that calls are the best way to reach each other in an urgent situation.
5. Regular check-ins will be agreed upon to ensure deadlines are established and met.
6. If one assignment deadline is missed, there will be a team intervention to see what's going on and if we can shuffle assignment responsibilities around to make things easier. If two assignment deadlines are missed, we will ask Hopper-Bridge team to step in to help resolve situation.
